

Phase 5: Class Feedback for LaModa

Home page

- Need a paragraph about us
- Highlight product brands
- Rotating banner images on the home page (theme?)

Services page:

- Redundant (prices)
- Remove prices page and add the prices to the Services (with details from Amir)
- Add a short description for each service
- Clarify the + (Amir provided more detail by email)
- Remove “Canadian dollars” - theme specific
- Button: Contact Us (us) - or remove it
- The sub-headers/side tabs are confusing (didn't know they're clickable), just list the Services with price

Our Stylist page

- Highlight the name (bold)
- Fix the featured image
- Remove “meet our team”
- Either fix layout or have one page per stylist
- Not much about Karmin? consistent content re the team (personal / professional)
- Stylist - add the name in bold / header

Portfolio page:

- Image name with dash (do something about it) - change “title” for all images as it shows on the website
- Change featured image
- Add the stylist name to each picture

Contact page:

- Embed the map (not just a link)
- Check the hours (on Google Sunday closed)
- Remove ! from contact (phone and map)

Add the following pages:

- Products on separate page with brand (highlight)
- Bridal page - dresses coming soon (might eventually become a separate website)

Widgets:

- Configure social media (remove twitter and LinkedIn)
- Put the correct Facebook and Insta, or remove them until the client provides the right ones
- Have social media open in new windows
- Contact info - phone number

Theme specific:

- On mobile - services page, check the layout
- Search widget - remove as it doesn't work very well
- Use consistent font
- Social icons not clear
- Change theme (half the page is the pictures, reducing space for the text)
