

Peer evaluation of group projects

Group: _____

Purpose:

To assist the professor in ensuring that each individual's grade reflects that person's contribution to the group project.

Assumption

When a member has contributed to the overall work of the team to the same degree as the average team member, she or he should receive 100% of the "overall team grade" for the assignment. Similarly, when a member has contributed less than other members, she or he should receive a lower grade.

Instructions:

List the members of your team, starting with yourself, and indicate what percentage of the team grade you recommend for each, excluding yourself. If you have listed a percentage other than 100% for any team member, please provide a detailed explanation for your assessment.
